

# Leading Mathematics at Your Primary School: A Complete Toolkit

Six month face-to-face long course

Anita Chin Mathematics Consultancy

Take your school's maths from good to great with this immersive long course, designed to develop maths leaders.

Our very first leadership long course equips primary school leaders with the tools they need to effectively change the way maths is taught and learned at their schools.

Based on the transformative *Whole-School Approach to Mathematics K-6 Model* (Waugh & Chin, 2018), the course helps leaders build their teachers' capacity to differentiate instruction and move from 'islands of good practice' to a whole-school approach: where content, culture and classroom practice all work together to create consistent, high-quality maths teaching and learning.

## Expert advice and support from Anita Chin

Over the six-month course your school team will benefit from expert advice and ongoing support from experienced maths educator, Anita Chin. Through a series of whole-day workshops and group mentoring sessions, participants have the opportunity to implement what they learn, reflect, and review their progress with the course group.

If you want to learn key strategies for transforming the teaching and learning of mathematics at your school, you can't afford to miss this one.

## Your free one-on-one planning call

Schools considering this course can take advantage of a free, no-obligation 30-minute planning call with Anita Chin. After getting an understanding of your school's needs and where you are on your maths journey, Anita will help you plan how your school can gain the most from the course as well as who to register for your school team.

**Contact Anita** to arrange your free call.

## Who should attend?

School teams of up to six, or individuals, including:

- Principals
- Executives
- Mathematics leaders
- Passionate classroom teachers committed to transforming maths at their school.

**Biraban Public School**  
**Toronto, NSW**  
**Terms 1, 2 and 3, 2019**

**Course starts in March 2019!**

Don't miss this exclusive workshop series.

This is the only course of its type being offered in 2019.

The next course will run in Term 1, 2020.

Completing *Leading Mathematics at Your Primary School: A Complete Toolkit* will contribute 9 hours of NSW Education Standards Authority (NESA) Registered PD addressing 2.5.2 and 6.2.2 from the Australian Professional Standards for Teachers towards maintaining Proficient Teacher Accreditation in NSW.

## About Anita Chin

A leading expert in Australian primary mathematics education, Anita works with schools across Australia to transform teachers and executive team members into confident, inspired mathematics educators and

leaders. She does this by delivering a deep, whole-school understanding of the mathematics curriculum, along with innovative teaching techniques that inspire and delight.

Anita is the founder of Anita Chin Mathematics Consultancy, which supports and inspires teachers and leaders through tailored workshops, demonstration lessons, team-based conferences and whole-school interactive learning frameworks. At the core of everything Anita does is a passion for building the next generation of deep mathematical thinkers.

Anita's *Leading Mathematics at Your Primary School: A Complete Toolkit* course is based on *The Whole-School Approach to Mathematics K-6 Model* (pictured), which she designed and launched with Tim Waugh in 2018.
