Organisation of content in the NSW Mathematics K–10 Syllabus

Content in the *Mathematics K-10 Syllabus for the Australian Curriculum* (NESA, 2019; BOSNSW, 2018; BOSNSW, 2012) is presented as a continuum of learning in stages from Kindergarten to Year 10. Within each stage, the syllabus is organised into three content strands and further organised into **substrands** (many are separated into two parts '1' and '2') with the five components of Working Mathematically integrated into the strands.

The content presented for each substrand is developmentally sequenced from the top of each content page to the bottom and is organised as follows:

Flush to the left are the main concepts i.e. Australian Curriculum **content descriptions** with what I call the 'number plates'

- (1st indentation level): **knowledge and skills** i.e. 'what' is to be taught and learnt
- ▶ (2nd indentation level): **Working Mathematically** components i.e. 'how' content is explored or developed
- (3rd indentation level): **mental strategies** with examples of written recordings.

The language section of each substrand K-6 includes a word list. Words appearing for the first time in each substrand are listed in bold type.

Content page numbers	*2019 revised hard copy (the 'orange book')	*2018 revised soft copy (PDF)	2012 hard copy (the 'orange book')	2012 soft copy (PDF)
Strands and substrands diagram	36	35	32	35
Early Stage 1 (Kindergarten)	59 - 60	57 - 58	51 - 52	56 - 57
Stage 1, Part 1 (Year 1)	102 - 103	100 - 101	90 - 91	95 - 96
Stage 1, Part 2 (Year 2)	104 - 105	102 - 103	92 - 93	97 - 98
Stage 2, Part 1 (Year 3)	162 - 163	161 - 162	147 - 1458	150 - 151
Stage 2, Part 2 (Year 4)	164 - 165	163 - 164	149 - 150	152 - 153
Stage 3, Part 1 (Year 5)	235 - 236	237 - 238	218 - 219	221 - 222
Stage 3, Part 2 (Year 6)	237 - 238	239 - 240	220 - 221	223 - 224

*inclusion of the National Numeracy Learning Progressions (NNLP's)

Teach directly from the online interactive version

Use an interactive touchscreen/board with an annotating tool so that you can write directly over all the lightbox images contained in the syllabus. Free access from the NESA website:
