

# Anita Teaches Your Class Maths: Multiplication and Division

## Demonstration lessons K-6

Would you like to see an expert classroom practitioner teach a lesson drawn from the Multiplication and Division substrand to students in your very own school?

Anita Chin will model effective whole-class instruction across different grades that allows you to assess students' understanding, adapt your lesson and differentiate 'on the go' using concrete materials, visual models such as the dot array, open-ended questions and rich mathematical language.

In her unique demonstration lessons, Anita skilfully engages your school's students in their own classrooms to provide the ultimate learning experience for your teachers. Anita runs three demonstration lessons in one day, customised to your teachers' needs. Working in stage- or grade-based teams, each teacher participates in:

- a 15-minute pre-lesson briefing, then
- observes Anita teach a 60-minute stage or grade-based lesson, and
- concludes with a 15-minute debrief with Anita discussing what she did and why.

### Your presenter

A leading expert in Australian primary mathematics education, Anita works with schools across Australia to transform teachers and leaders into confident, inspired mathematics educators.

With over 25 years' experience in Mathematics education K-12 Anita has a uniquely animated and enjoyable teaching style and shares her content knowledge in ways teachers can understand and relate to. She delivers a deep, whole-school understanding of the mathematics curriculum, along with innovative teaching techniques that inspire and delight.

**Participants:** Up to 35 from one school

**Audience:** Early career teachers, experienced teachers, maths leaders and school leaders.

**Delivery Model:** Whole-day PL. Three x 90-minute sessions, each with a different stage team.

**Course Code:** DTMD1520
