

5 is one more ↑ than 4  
 $4+1=5$

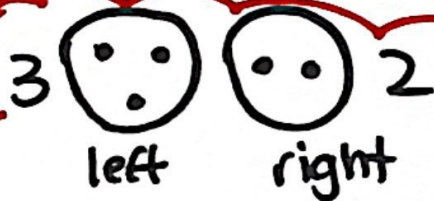

5 is one less than 6  
 $6-1=5$

2      3  
2 and 3 is 5  
 $2+3=5$   
 $\frac{2}{5} + \frac{3}{5} = \frac{5}{5} = 1$

five

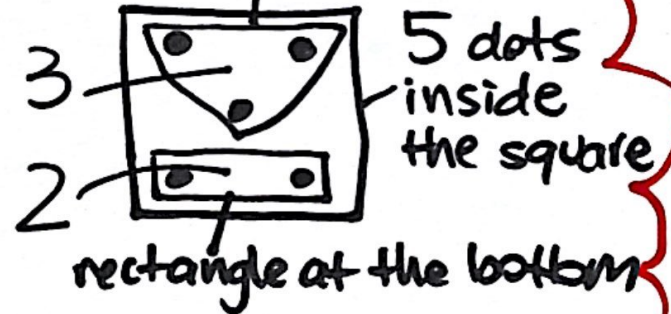

My brother Ethan is 5 years old.

there are 2 groups.  
The groups are not equal.  
Altogether there are 5 dots  
3 and 2 more makes 5  
There is one more on the left than the right.

triangle at the top

The equilateral triangle  has one more circle inside than the quadrilateral that is a rectangle in landscape orientation
