

Describing dot domino patterns

Counting
Domino Dots

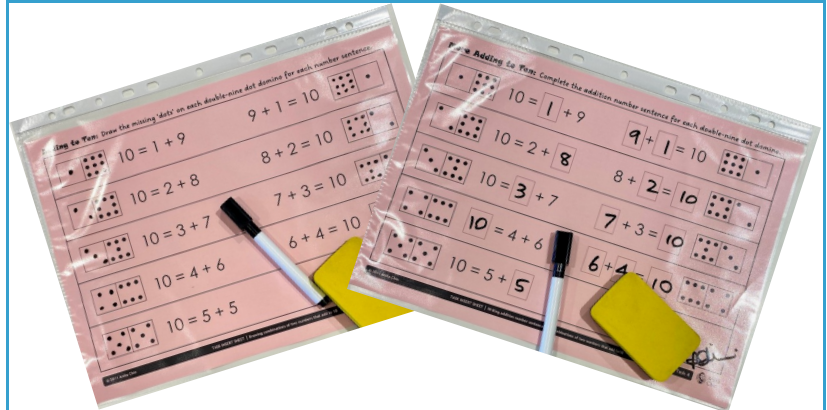

Task sheet 1 (yellow)

Dot Domino
Number Sentences

Task sheet 2 (yellow)

Drawing dots and writing addition number sentences

Adding
to Ten

Task sheet 3 (pink)

More Adding
to Ten

Task sheet 4 (pink)

Writing subtraction number sentences

Subtracting
from Ten

Task sheet 5 (blue)

Related addition and subtraction facts

Adding and
Subtracting

Task sheet 6 (blue)

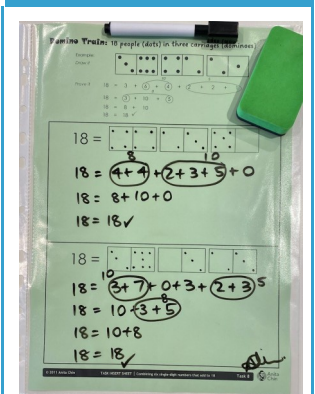

Combining four single-digit numbers

Domino Train:
12 people, 2 carriages

Task sheet 7 (green)

Combining six single-digit numbers

Domino Train:
18 people, 3 carriages

Task sheet 8 (green)

Use an *Expanding File carry case to store your class sets of each coloured plastic sleeve insert sheet.

Anita uses all 19 sections of her carry case to store a range of task insert sheets & language scaffold sheets for use with K-6.

Keep your 'Maths Carry Case' on your maths shelf in your classroom for quick and easy use!

*Officeworks, code KEEXPCFLGN, \$6.00 (GST incl. 23/9/2022).

Counting Dot Dominoes

left

Put your domino here

right

Draw all
the dots

Write how
many dots _____ and _____ makes _____ **altogether**.

On the **left** there are _____ dots.

On the **right** there are _____ dots.

Altogether there are _____ dots.

There are **more** dots on the left / right.

There are **less** dots on the left / right.

or

The dots on the left are **the same as** the dots on the right.

Dot Domino Number Sentences

left

Put your domino here

right

Draw all
the dots

Write how
many dots

_____ and _____ **more** makes _____ **altogether**.

There are _____ dots on the **left**. There are _____ dots on the **right**.

Altogether there are _____ dots on the domino.

Write a **number sentence** using the **plus sign** to describe the domino.

$$\begin{array}{c} \underline{\hspace{2cm}} \\ \text{left} \end{array} + \begin{array}{c} \underline{\hspace{2cm}} \\ \text{right} \end{array} = \begin{array}{c} \underline{\hspace{2cm}} \\ \text{altogether} \end{array}$$

Hide the dots on the **left** side.

Write a **number sentence** using the **minus sign** to describe what happened.

$$\begin{array}{c} \underline{\hspace{2cm}} \\ \text{altogether} \end{array} - \begin{array}{c} \underline{\hspace{2cm}} \\ \text{left} \end{array} = \begin{array}{c} \underline{\hspace{2cm}} \\ \text{right} \end{array}$$

Hide the dots on the **right** side.

Write a **number sentence** using the **minus sign** to describe what happened.

$$\begin{array}{c} \underline{\hspace{2cm}} \\ \text{altogether} \end{array} - \begin{array}{c} \underline{\hspace{2cm}} \\ \text{right} \end{array} = \begin{array}{c} \underline{\hspace{2cm}} \\ \text{left} \end{array}$$

Adding to Ten: Draw the missing 'dots' on each double-nine dot domino for each number sentence.

$$10 = 1 + 9$$

$$9 + 1 = 10$$

$$10 = 2 + 8$$

$$8 + 2 = 10$$

$$10 = 3 + 7$$

$$7 + 3 = 10$$

$$10 = 4 + 6$$

$$6 + 4 = 10$$

$$10 = 5 + 5$$

More Adding to Ten: Complete the addition number sentence for each double-nine dot domino.

$$10 = \square + 9$$

$$\square + \square = 10$$

$$10 = 2 + \square$$

$$8 + \square = \square$$

$$10 = \square + 7$$

$$\square + 3 = \square$$

$$\square = 4 + 6$$

$$\square + \square = \square$$

$$10 = 5 + \square$$

Subtracting from Ten: Complete the subtraction fact for each dot domino (start with the total).

$10 - 1 = \square$

$\square - \square = 1$

$10 - 2 = \square$

$\square - \square = 2$

$10 - \square = 7$

$\square - \square = 3$

$10 - \square = 6$

$\square - \square = \square$

$10 - 5 = \square$

Adding and Subtracting: Draw dots on each domino (up to 18). Write four related number facts.

--	--

--	--

--	--

Domino Train: 12 people (dots) in two carriages (dominoes)

Example:
Draw it

Prove it

$$12 = 4 + 2 + 1 + 5$$

5

$$12 = 5 + 2 + 5$$

10

$$12 = 10 + 2$$

$$12 = 12 \checkmark$$

$$12 =$$

--	--	--	--

$$12 =$$

--	--	--	--

Domino Train: 18 people (dots) in three carriages (dominoes)

Example:
Draw it

Prove it

$$18 = 3 + 6 + 9$$

$$18 = 3 + 10 + 5$$

$$18 = 8 + 10$$

$$18 = 18 \checkmark$$

$$10 + 8 = 18$$

$$18 =$$

--	--	--	--	--	--

$$18 =$$
