

# Anita Chin's DEMONSTRATION LESSONS

## Customised in-school professional learning K-6

### Anita's demonstration lessons

Would you like to see an expert classroom practitioner teach maths lessons to students in your very own school?

Let Anita bring her infectious passion, practical ideas and curriculum knowledge to your teachers and their students.

In her unique demonstration lessons, Anita skilfully engages your school's students in their own classrooms from Kindergarten to Year 6 to provide the ultimate learning experience for your teachers.

### About Anita Chin

With more than 25 years in maths education, Anita Chin's inspirational and practical approach has made her one of the most influential experts in primary education in Australia. She empowers teachers to transform the lives of children through maths.

### What happens on the day?

Anita is at your school for a whole day. She delivers three dem lessons, customised to your teachers' needs. Working in stage- or grade-based teams, teachers:

- participate in a pre-lesson briefing (15 minutes)
- observe Anita teach a stage or grade-based lesson (60 minutes)
- debrief with Anita discussing what she did and why (15 minutes).

Anita will model effective whole-class instruction across all grades using her 5-part lesson structure and show how differentiation is doable!

### Details
